

PROFILE

VETO ROAD CONTRACTING LLC

Introduction

We are an Engineering Firm operating in the Construction Services Sector of the country, primarily in the field of Road works and pavement.

Our services include not only the Asphalt works but also interlocking tiles and finishing in any type of Hardscape.

We are approved to work with RTA Roadworks besides other agencies.

We have found our niche in the Construction of Road Works and pavement construction. We have skilled workmen and experienced management staff who have completed projects requiring high quality of services and finishes with extensive schedule constraints and strict timelines.

Our Role in Industry

The silver lining to our role in the industry is our works and services with such esteemed agencies as RTA Dubai. We have been working in the field for all types of pavement works and our reputation proceeds us. We have completed works in Asphalt, interlock and hard standing Concrete and now looking forward to include Cycle as well as Jogging Tracks.

Vision

We endeavor to do services and stand by them proudly

Mission

Our mission is to assemble a pool of expertise and skill that can maintain growth and efficiency in the competitive environment of construction industry. Our aim is to grow and develop beyond geographical borders

We have expertise in all the fields relevant to

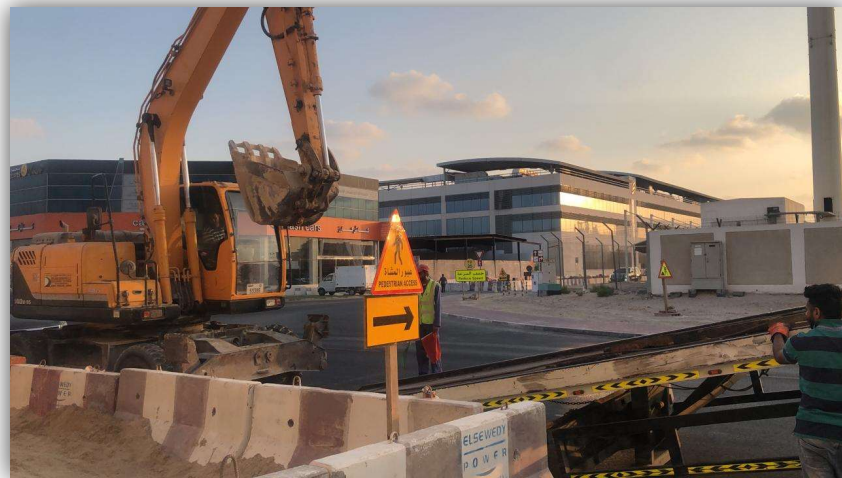

Pavement

construction. We are skilled in mass earthwork, quarry material courses, bituminous layers as well as levelling course with interlocking paving blocks.

We have pool of workmen and holding agencies which prioritize our job requirements and schedule of work completion; these include agencies for the supply and services for Road Furniture, slope protection, guard rails, gantry signage and their pile

foundations. We have expert professionals who impart their experiences for the construction of bridges, pile and shallow raft foundations, pre-stressing and post tensioning, girder and deck construction and launching, etc. We have dedicated team for the road side

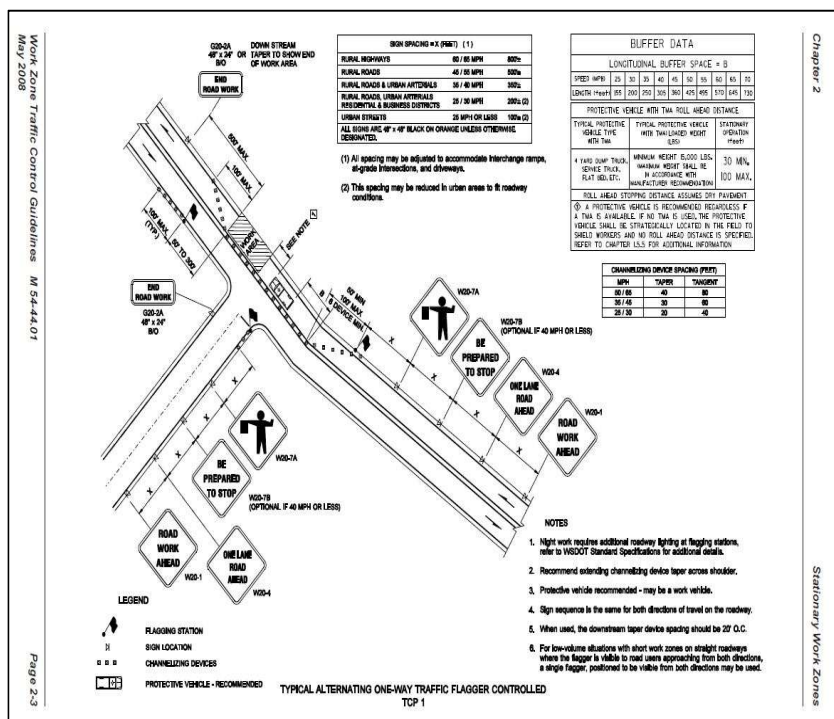

Our Technical Team is specially adopted to work for the construction of linear works as pipeline, cable laying, etc. We have a pool of tradesmen such as Pipefitters and cable connectors who can carry out variety of works.

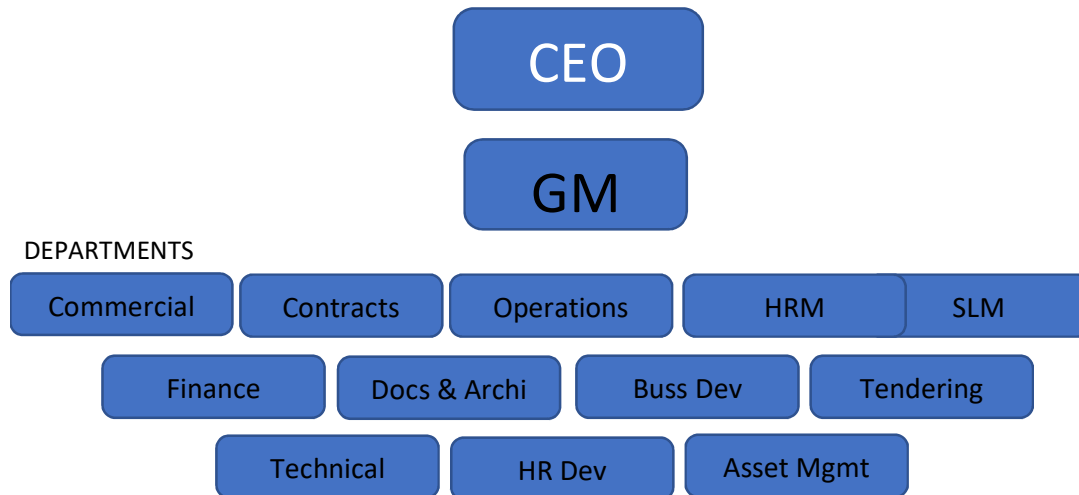

Safety Control Plan

To abide by our HSE objectives VETO puts in place an elaborate safety control plan for each project including but not limited to following key components;

- Induction and training
- Task risk assessment
- Pre-start meetings
- Toolbox talks
- Training in safe use of hazardous substances
- Training in proper use of PPE (personal protective equipment)
- Safety helmets
- Safety boot/hi-vis
- Eye protection
- Safety gloves
- Ear protection
- Dust masks
- Respiratory equipment
- Reporting of accidents / incidents / near-misses
- General HSE requirements
- HSE organization at site
- Material stacking
- Plant and equipment
- Operators / workers
- First aid

MANAGEMENT CHART

Veto Road Contracting LLC is composed of 12 Departmental Units including Operations and Portfolio Management. Its well-knit structure leverages it to control wastages of time and finances as well as materials and offering higher efficiency levels of performance relieving our Clientele of going through painful levels of delays and reducing over burden of extra paper work.

Our Technical Team works hand in hand with the Commercial Department thus supporting the Business Development effort to enhance output with fewer resources and by rolling with diverse portfolio and controlled budget.

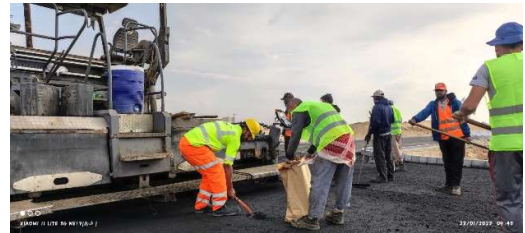

This two way scheme helps our client's two-folds; our clientele get the best offer which is economical for them and they roll out with their project with less initiating budget and reduced documentation effort.

ISO
Certified

Delivering the project on-time and with application of TQM has made our efforts to win laurels in the construction industry of UAE.

Our leadership has a progressive business management vision and with a handsome paid up capital we have started to become the instrument of choice for clientele in the market, especially our old clients.

Our team of management officials as well as our workforce goes through intense on job training along with an In-house Program of Skill Development & Training initiated by the leadership.

Department of HR Development initiates and supports activities by development of skill level and enhanced efficiency of processes, all along the job.

Our Clientele never get to see the other side of projects which are replete with overburdened paper work, delays and issues of poor quality and defective workmanship.

APPROVAL OF WORK FOR RTA

We have been awarded the Approval to work for RTA Dubai for all works including Asphalt and ancillaries. We have been working for RTA with special approvals and permissions for some time and it is a certification of the trust of RTA upon our services and works that we have been permitted to carry out the activities wholesale.

11	Unskilled	108

Our Prime asset and resource is our manpower.

The hardworking and tenacious workforce that runs like life and blood in the veins of the setup.

Our worker is trained and skilled and that imparts accuracy, quality and efficiency to the projects and activities.

The management team leaves no stone unturned when it comes to put the efficiency and quality of our work at site to such refined and automated workflows in office where it is further refined and outshines in the comity of projects

Machinery

The works and services can never be achieved in the field of Road works unless there is a pool of Equipment and Machinery supporting the works. The industry is Machine intensive.

We have machinery composed into sets to carry out the operations simultaneously in various locations and on different projects.

Lead equipment for Asphalt works is Paver Machine.

We have two pavers with all the relevant machinery comprising the set. The set includes Tandem Rollers (DDR) and Pneumatic Tiered Rollers (PTR) with Mini Rollers for making jointing as well as small patch operations where limited space forces to use small equipment.

Additionally Road Cutting Machine known as Saw Cutter is also available along with Compressor to clean off the area if required. The team of workers include the operators and highly skilled Rake men.

Our services are not limited to field work only; we have a dedicated team of professionals who have a keen knowledge of materials of construction like Asphalt and can manage the JMF preparation and approval. Method Statements, ITP and TRA are also part of the package including Shop Drawings.

VALUE ADDITION

Total Quality Management

We are committed to quality of works based upon the Best Practices in industry. We believe in providing services which are assured in quality and are at the top of services.

Our quality is manifested in the Construction as well as in Documentation and Project Management.

In addition we believe that Safe Working is top of priority. We plan and prepare all the Quality Assurance and Quality Control Management Structure in parallel to the services paradigm.

Task Risk Assessment and Job Description lay the basis of our Safe Work Scheme.

The works and services can never be achieved in the field of Road works unless there is a pool of Equipment and Machinery supporting the works. The industry is Machine intensive.

We have machinery composed into sets to carry out the operations simultaneously in various locations and on different projects.

Lead equipment for Asphalt works is Paver Machine.

We have 02 nos pavers with all the relevant machinery comprising the set. The set includes Tandem Rollers (DDR) and Pneumatic Tiered Rollers (PTR) with Mini Rollers for making jointing as well as small patch operations where limited space forces to use small equipment.

Additionally Road Cutting Machine known as Saw Cutter is also available along with Compressor to clean off the area if required. The team of workers include the operators and highly skilled Rake men.

Our services are not limited to field work only; we have a dedicated team of professionals who have a keen knowledge of materials of construction like Asphalt and can manage the JMF preparation and approval. Method Statements, ITP and TRA are also part of the package including Shop Drawings.

Projects

We have carried out projects in Dubai and Ajman emirates. The projects are mostly Asphaltic Pavements including but not limited to interlock tiles and the ancillary works therein.

We have been in the Construction Industry for over half a decade and primarily focus on projects which allow a margin of functionality. We have been able to make a value out of our projects by delivering the project within timeframe and requisite quality.

Our project management team makes sure that nothing comes above the satisfaction of our customer and that at every time during the project our customer and all the other stake holders are in peace with the functionality and performance.

Our prime concern is to perform with such quality and efficiency that Veto becomes anonymous with quality services at economical rates.

Sr.	Emirate	Value	Status
01.	Dubai	59,968,825.67	Completed
02.	Ajman	6,749,224.75	Completed
03.	Dubai	46,311,081.69	In Progress

Our special dedication to quality and efficiency has rendered us above the crowd and we are now in the limelight of business industry in the estates.

We have initiated our Branch Office in Abu Dhabi and shortly it shall be operational also.

Our prime focus is the array of projects which bring us good name so that we may move on with the larger and more heavily budgeted projects.
